

Relic Entertainment
HR

February 20, 2018

Dear Sir or Madam,

I would like to apply for the senior gameplay programmer position advertised on your website. I have experience developing games in personal projects in Unity 5 with C# and Unreal Engine 4 with C++. I have a strong foundation in computer graphics, 3D math and computer hardware.

I would relish an opportunity to assist Relic Entertainment in creating some of the most powerful and inspiring gaming experiences.

I have excellent personal skills. I am an experienced team leader, a natural independent thinker, and a concise communicator. I believe that my abilities would fit well with the software engineer role and that I would be a valuable asset to the Relic Entertainment team.

Thank you for your time and consideration.

Yours faithfully,

Nick Houghton
